### CO-CHAIRMEN URGE BIG TURNOUT JUNIOR-SENIOR AFFAIR SET FOR THURSDAY EVENING IN WOMEN'S GYM

Mixing with all the trimmings is how co-chairmen Dick Fry and Chuck McCumby termed the junior-senior get-together which takes place Thursday evening in the Women's gym. Gold and white will dominate in decorations and distinctive dress.

They will "wobble" in white and the juniors "gallop" in gold, chairmen said today. Big crowds mean a big time, a big time means a whale of a time for all upper-classmen attending our quarterly party," said McCumby.

Kidwell, in charge of entertainment, said plans are well under way for a successful intermission upperclassmen talent. Juniors entertaining qualities are expected to contact Kidwell right away.

#### PLANS CONTINUE

Considerable confusion and controversy as to the possibility of date of the mixer interfering with other school functions that came up before the committee yesterday, but plans will continue as have already been announced, the committee stated.

Chairman McCumby said that in both classes is very high that the attendance competition should be close. McCumby of seniors stated, "The seniors have the same spirit that they when they were juniors. They have the spirit which made them successful throughout the sneak attack. They held a very successful party this quarter, and are out to bounce the juniors and hard. Otherwise, the evening will be a friendly one which will develop a lot of goodwill between the two classes."

#### MEMORABLE NIGHT

Chairman Fry of the juniors said that the class of '44 "outclasses" '43 in every respect. They are only approaching a most disastrous defeat when they start playing with the juniors in competition. The night of December 3 will be memorable as a victory for the juniors. —Amen."

Both classes have had an outstanding past. The class of '44, while they were sophomores, came to a victorious close of their career in their lower division year by winning a cup presented by Hudson Jewelers after a year of contests with the freshmen.

#### SENIORS SLY

The class of '43 proved highly spirited last year with a series of antics and trickery that led to the exposing of the junior-senior sneak before it actually took place. It spoiled completely the plans of the other class and left them in a lurch.

These are the two classes that meet in attendance - competition Thursday evening, the committee said. Rivalry will be friendly, but "tough outfit meets tough outfit", chairmen concluded.

Both classes have held pre-mixer parties to work up spirit this quarter, and plans are under way to make the affair something really good, the two councils said.

### VARIETY SHOW WAYS TO ARMY

Members of the Romper-Round will be transported by army tomorrow evening to Matashi's, where they will put on the show to entertain soldiers, and will be entertained and given refreshments by the service men following the show.

Members of the cast will meet in front of the Student Union at 6 o'clock, where army cars will be waiting to take them to the setting of their first off-campus presentation.

Romper-Round is an all-San Jose college variety show which runs for one hour and is to be used to entertain soldiers and down the line in the Santa Clara valley. Its express purpose will be to help that part of an evening's entertainment that usually presents a soldier dance.

It was organized on-campus under social affairs for service men chairman, Betty Henley. This will be the first of a series of presentations that the cast will give for service men.

### La Torre Prepares Mailing List

In compliance with its new policy of sending La Torres to students who have purchased advance subscriptions but who are leaving school before publication of the annual, the business staff asks all advance subscription ticketholders who are going to leave at the end of this quarter to give their names and addresses to staff members in the publications office to begin the mailing list of the 1943 annual.

"We have adopted this policy because of the uncertainty of students' status in school in regard to the calling up of the reserves," comments business manager Jerry Becker. "A great many men and women will have undoubtedly left school by next June, but we feel that they will be just as interested in viewing the school year of 1942-43 as portrayed by the '43 La Torre'."

Advance subscriptions are still on sale in the Publications office. The deadline for the purchase has been set as the first week of next quarter—less than a month away.

### Director Hopes No Blackout Will Interfere With Christmas Play

Last year's Christmas play's second night audience was left in the dark, but it is hoped by Director Wendell Johnson that the Yuletide program consisting of a one-act play and musical numbers to be presented Thursday night at 8:30 in the Morris Dailey auditorium will not be cut short by the siren of an air raid alarm.

The program is being jointly produced by the Speech and Music departments, with music being provided by the A Cappella Choir, directed by William Erlendson of the Music department and the Madrigal singers under Miss Maurine Thompson. Soloists will be Letha Medlin; Helen Reese, who will also accompany Miss Medlin on the violin; James Wright, and Frances Ebert. Jean Long, a former State student, will offer selections of the organ and accompany several of the soloists. Mrs. Lydia Boothby, music instructor, will accompany Miss Medlin's violin selections on the harp.

#### SJS TECHNICALS

A list of the names of students enrolled in technical only, and who are to be considered for transfer to the four-year A.B. degree course at the end of this quarter, is posted on the bulletin board outside the Personnel office. Any student who wishes to be considered for transfer to the A.B. degree, but whose name is not on the list, should see either Dr. Heath or Miss Clark in the Personnel office. Unless this request is made, the committee will take no action.

### Quarterly Sale of Unclaimed Articles Today

The quarterly sale of unclaimed lost and found articles continues today in front of the Morris Dailey auditorium. This sale is sponsored by the Book Exchange, and half the profits are turned over to the exchange, while the other half is donated to the Student Body Emergency Loan Fund.

Such articles as filter paper, lipstick, pens, pencils, compacts, rings, watches, key cases, rulers, bandanas, aprons, packets, pearls, bracelets and bathing caps may still be purchased, said Rex Gardiner, member of the Book Exchange. The prices range from 4 cents for an eighteen-inch ruler to 35 cents for an all-wool girl's plaid jacket. Yesterday, the first day of the sale, the returns were estimated at \$10.

Students acting as clerks for the sale of unclaimed goods are: Virginia Ferguson, Spike McClelland, Glen Guttormsen, Henry Leland, George Coles, Marshall Kelley, Doug Aitken, Peggy O'Brien, Florence Klein, Marie Hayes, Chickie Hayes, Rex Gardiner, Jim Wilson, Meredith Hughes, Jeanne Fischer, Barbara Rico, Corrinne Rainville, Kathleen Bull, Edwina Scilacci, Ruth McCue, Helen Lettunick, Betty Kelley and Mary Hall.

### Council Meets Tonight At 7:30

Minus Bob Jennings, who has taken a leave of absence to have an operation, the Student council will meet at 7:30 tonight in the Student Union.

Main topic of discussion will be the punishment handed by the Student Court to six organizations who failed to turn in lists of members to the council.

### OLD TOYS OF ALL DESCRIPTIONS NEEDED AS SPARTAN DAILY OPENS EIGHTH ANNUAL TOY PILE DRIVE

By CLAIRE LAWS

Old toys! Broken toys! Discarded toys! No, we are not selling them, it's just the Eighth annual Spartan Daily toy drive getting under way.

Here is a chance for every member of the student body and faculty member to participate in a school activity, and not even a student body card is required. Surely every student can find,

beg, borrow, or buy some toy which will go towards making some under-privileged child happier on Christmas day. Look in the cellar, attic, in your roommate's animal collection, and in the leftovers from the scrap drives. Somewhere in every home, apartment, fraternity, or sorority house there is an object that can become a part of the toy pile.

#### ANNUAL SUCCESS

In the last seven toy drives sponsored by the Spartan Daily staff, enthusiasm and co-operation shown on the part of the students, faculty, and various organizations have been most heartening and have increased with each additional year. Maybe it's been the yen to play Santa Claus or just to have that good old feeling that comes from giving at Christmas time. Whatever the motive, the Daily staff of 1942 is counting on the whims and generosity of students again this year to stack the toys high under the yuletide tree.

Contributions of every size and description will be gratefully accepted for the limbs of the tree in the Publications office. Antiquated, chipped, broken, torn—any of the more decrepit cast-offs of the kid sister or brother can still be used. If you live away from home, trot down to the local 5 & 10 stores and buy something or bring the money into the Publications office.

What happens to these toys after staff members are through having a big time with them? Well, they're turned over to the Salvation Army where a series of rejuvenation treatments are applied. They are then distributed at Christmas to hundreds of children who would otherwise be deprived of the suspense, fun, and yuletide spirit that comes with the receiving of gifts at Christmas time. Money that is collected from those who prefer to donate dimes and quarters is used to buy gifts suitable for children in bed. These toys are given to the Children's Preventorium of the County Hospital.

#### TOY DRIVE DANCE

Climaxing the toy drive is the annual Toy Drive Dance. This year the Spartan Daily staff invites all students to the Student Union from 4 to 6 o'clock on Thursday, December 10. Admission to the dance will be a toy or 10 cents. Plan to attend, since you'll not only have a good time, but also have a chance to swing into the Christmas spirit and inflate that ole ego by giving some child a chance to have a merry Christmas.

### Concert Features Benning Dexter

The San Jose State college Symphony Orchestra will present its first concert of the season December 8 at 8:15 p.m. in Morris Dailey auditorium.

Soloist for the program is Benning Dexter, head of the college piano department, who has appeared as concert pianist on the campus many times during the past three years. He recently played on an NBC shortwave broadcast to South America.

Special lighting will be used to heighten the effect of the musical numbers and to give the entire performance a more Christmasy air.

#### CLIMAXED BY PLAY

The one-act play "Dust of the Road" will bring the program to a climax. This same play, classified as a fantasy with a realistic background, was produced here three years ago by speech students as a laboratory experiment. A tramp, who exemplifies the spirit of the Biblical character, Judas, coming back to earth to redeem his soul by helping others, supplies the fantasy element of the play. Realism is brought out by the mean, miserly farmer who is converted by the humble tramp during the Christmas season in a mid-western farmhouse kitchen.

Jack Hume plays the tramp; Ed Ropolo, the farmer; Esther Lacitola, the farmer's wife, and Ruth Banks, an old woman.

The program is open to the public and is free of charge. It is estimated that the entire production will last about an hour and a half.

### Chapel Services On Campus Today

"Vision in These Times" is the topic chosen by Mrs. Florence Bryant of the English department for today's Chapel Hour program, which will begin at the usual 12:35 p.m. in the Little Theater.

Special music will be provided by Helen Latta, who will play a violin solo, "Arioso", by Bach. Her accompanist is to be Howard Latta, pianist.

According to Advisor Dean Paul Pitman, prayer will be given by Betsy Hand. The prelude will be of recorded music.

Next week Chapel Hour, which thrives for students of all faiths, will feature the college A Cappella Choir under the direction of William Erlendson of the Music department faculty.

## CAMPUS COMMENT

By DEAN THOMPSON

Gasoline rationing extends its grip over the whole country today. From now on we can all expect to stay near by.

Entertainment will be scarce over the week-ends. Theaters are already overcrowded, and many more persons will be clamoring for something to do.

A few students were gathered outside one of their rooms yesterday discussing this subject. They came to the conclusion that something should be planned for each week-end. Something that all the students could attend.

Student body dances with "off the record" music would greatly aid the entertainment shortage. Student officers should do their best to see that some solution to the problem is reached. It is too late to get any program in swing this quarter, but plans could be made for the next year.

Perhaps skating parties will come into popularity. There has been some talk of the Ice Bowl reopening this winter. That would undoubtedly help.

Bowling parties would interest many students. A plan might be made with one of the bowling "palaces" to turn over all of the alleys to State students on the night of a bowling party.

Sports contests will probably draw larger crowds. Collegiate basketball games and collegiate boxing may rise to new heights in both college and community popularity.

To sum up the situation, we must make the best of the entertainment that we will have. If each of us does his part, there will always be something to do. Perhaps we will all become better acquainted.

## Carlton Roberts, Former Spartan, Earns Navy Wings

Former San Jose State college student, Carlton B. Roberts, recently was awarded the coveted "Navy Wings of Gold" and commissioned an ensign in the U. S. Naval Reserve at the Naval Air Training Center, Corpus Christi. Ensign Roberts received his

CARLTON B. ROBERTS

wings with the designation of a naval aviator from Rear Admiral A. E. Montgomery, USN, commandant of the training center, at class graduation exercises.

Roberts volunteered for flight training in January, 1942, and received preliminary instruction at the U. S. Naval Reserve Aviation Base, Long Beach. Upon successful completion of this training he was transferred to Corpus Christi for intermediate and advanced training at this "University of the Air," the world's largest naval aviation training center.

## ARMY RATIONS SHOWN HERE

Have you seen the 12½-ounce dinner the paratroops carry with them? Do you know what the "Logan" bar looks like, the soldier's scouting duty food, his meals for one day in a fox hole? These emergency field rations and photographs of recent desert maneuvers are displayed this week in the Home Economics building.

This exhibit has been collected and arranged by Leone Hampton Woods, a member of Dr. Jones' Methods class, with the co-operation of the Army Public Relations department at San Jose and the Cooks and Bakers' school at the Presidio in San Francisco. These groups both loaned emergency field rations and photographs to the class for San Jose State college students to view.

## YEARS AGO

By BOB POPE

10 YEARS

Thursday, December 1, 1932.

A Men's Mixer was held in the Men's gym for all men students of San Jose State. It was entirely a stag affair, with everything from cowboy music to a boxing match.

Bud Hubbard was re-elected as captain of the 1933 gridders after having led the Spartans to their first undefeated season in their history.

5 YEARS

Wednesday, December 1, 1937.

Students planned the last dance of the quarter to celebrate in honor of the Spartan gridders in the Hawaiian Islands. The theme was to be tropical.

The novice all-campus boxing tournament began with Coach Dee Portal in charge. The start of the season promised some good talent on the part of the boxers.

Monday, December 1, 1941.

## JUST AMONG OURSELVES

By DR. T. W. MacQUARRIE  
 President San Jose State College

I have been writing thank-you notes to everyone I could think of who had anything to do with our recognition by the Association of American Universities. I have been able to get in touch with most of them, I believe, but I hardly know how to reach the members of last year's graduating class. They were the valiant ones, you know, who were so suddenly called upon by the Association of American Universities to take the Carnegie Foundation examinations. They sat and worked for two mortal days last spring on examinations which they had never even heard about. They took them at our earnest request, and because the A. A. U. required it as a part of our application for recognition.

As I understand it, no examinations of that kind had ever been

given before. It was an entirely new wrinkle — and tough. Something which especially made hard for us was that they made for a liberal arts college. I did not recognize the major education. Since a good many of our seniors were going to be teachers, much of their special knowledge did not count.

Still they must have done very well. I have seen those reports and they checked up very well with other averages. I was friends of 1941 to know that college appreciates the hard work they did. We all appreciate good sportsmanship in taking exams without a whimper. I made a fine record. The Class of 1941 must always be remembered for its work in putting the college on the map. Many thanks, 1941.

## WRITE TODAY

A close friend of mine in the service died the other day. True, it was not a very uncommon happening in our war. For every day sailors, soldiers and marines who are loved ones of parents, sweethearts and friends here at home the way of all flesh a little sooner than ordinary life would allow because they are the ones who are risking their lives giving their lives in the fight for freedom.

The accompanying grief resulting from the death of a service man is shared by thousands daily. But their grief is not as mine, for it is one of bitter pain.

You see, a few days before his death I received a letter from my friend which began simply, "Why haven't you written to me?"

He died before I could answer.

There is not one of us who does not have a friend in the service. There is not one of us who does not know a man in uniform who is away at some distant battle front or in a camp. Write that long over-due letter to him now and again and again.

There will be no greater happiness for him — and for you — if you do. Tomorrow is not soon enough. Write today. Tomorrow may be too late. He will write whenever he can. —Houghton

## Rattlesnakes Make Interesting Hobby, Says Ted Fisher In Speech At Beta Beta Beta Club Luncheon

By MAXINE SIPES

Ted Fisher has a poisonous hobby, in the true sense of the word. What is it? Rattlesnakes.

At the Beta Beta Beta, science fraternity, luncheon Tuesday, Fisher told about his avocation and even "milked" a snake of its poison in front of his audience. Some of the material contained in his talk are as follows: rattlers are widely distributed throughout North and South America, but they are found on only these two continents; the

rattle is not an accurate measurement of the snake's age because many times rattles fall off; a rattlesnake has excellent eyesight and a keen sense of smell; the fangs shed every three months; the snake disposes of them by leaving them in its prey.

Fisher explained how the venom works, attacking the red blood cells, and also gave the first-aid treatment for snake bite. He said that suction and anti-venom are the accepted means for combating the poison, and that if anti-venom is not given, suction must be kept up for fifteen hours.

"A rattlesnake only lunges from

The pledges of the Artizan Art society donated their services to the "Send a Daily to Camp" program by planning to draw caricatures of students for a small fee, the money going to support the campaign.

State soccer men moved closer to the NCI crown by dumping San Mateo Jaysee 6-2 on a rain-soaked field.

one-third to one-half of its length, contrary to popular opinion," said Fisher. "Its jaws open wide until a fraction of a second before contact. It backs about a third of its body unless it is enraged."

## JOB SHOP

An opportunity for a part-time job for lack of shooting ability open, with hours preferably in the morning. \$1 an hour.

There is also a delivery job in the afternoon, at 50 cents an hour. Applications for Christmas work at the Post Office are still being accepted in the Dean of Men's office.

An afternoon job pays \$1 an hour. Four men are wanted to do extra work at 62½ cents an hour. There is an opening for station workers over the old forward ends.

A dishwashing job is still open on the campus at 45 cents an hour with a 20 per cent discount on the price of meals.

# Spartan Daily Sports

SAN JOSE, CALIFORNIA, TUESDAY, DECEMBER 1, 1942

## SPORTS SCRAPS

By  
"SCRAPPY" SQUATRITO

Come next Tuesday night, what promises to be one of the most interesting cage seasons in Sparta's history will get under way when the Coast Guard quintet headed by Stanford's Jim Pollard tangle with the Spartans in the local gym. Gasoline rationing will be in effect when the cage sport rolls around and for the first time basketball may pay for itself. The Spartans, with nine members out of 13 back from last year's squad, are expected to field a pretty strong team, but will also face one of the toughest schedules since San Jose was a member of the Northern California Intercollegiate Conference.

## FRESNO BULLDOGS TAKE HUMBOLDT'S PLACE ON STATE CASABA SCHEDULE

By JERRY VROOM

Fresno State college, a member of the CCAA last year, has definitely decided to have a basketball team this year and will replace Humboldt State on the San Jose schedule on February 5 and 6. A decision has not been reached yet as to where the game will be played.

Fresno will have a strong cage outfit headed by veteran Jim Molich, star end for their football team. Several other members of the football squad saw service as players last year with the Bulldogs.

### Six Gridders Report

With the closing of the football season there will be six members of the Spartan grid squad reporting this week for cage practice. Bert Robinson is the only one of this group that has seen varsity experience, but he is likely to be laid up with his injured knees for a short time in order to allow them to heal.

Other gridders who are reporting are Hal Crisler, Don McDowell, Jack Russell, Willie Steele, and Bob Ward. Crisler has that badly needed height, being 6 ft. 4 in. tall. He nabbed all conference honors while at Richmond high school. Russell, also 6 ft. 4 in., played his high school ball in Oakland. Both of these lads are freshmen.

Willie Steele, ace broad-jumper on the track team, is a six-footer with plenty of speed. Vern Cooley, pole vaulter on the track team, is a candidate for a guard position. Bob Ward, halfback on the football team, saw action last year as a member of the Stockton J. C. team.

### Head Soccer Men

Hal Sonntag, Rby Diederichsen and Paul Borg lead the list of boys coming from the soccer team. They were members of last season's varsity squad and will be strong contenders for a pair of starting berths on this year's aggregation. None are very tall but they make up for lack of height in speed and shooting ability.

Porter McConnell and Jerry Phillips are two more soccermen that will report for the team. McConnell, a tall center, led last season's frosh team in scoring. All the soccer men will not report until next week.

Doug Bacon, a starter on Claude Moran's water polo team, signed up to come out for practice, but he hasn't shown up yet.

Pete "Khaki" Filice has been moved to the center post from his old forward spot and has been showing up well. He is a good rebounder, being a husky lad, and he is also one of the best ball-handlers on the team.

## Diederichsen Sends Soccermen Against San Mateo Junior College Eleven In Final Home Appearance Of Season Tomorrow Afternoon At Spartan Field

Playing their last home game of the season, the title-bound Spartan soccermen will meet San Mateo J. C. on the Spartan Field near the Stadium tomorrow at 3:30.

Coach Roy Diederichsen ran his squad through a tough offensive drill last night in preparation for tomorrow's contest. The big gold machine is not suffering from any serious injuries at present, so they should be at full strength tomorrow. Although he was bothered by an ankle injury for a time, Bud Racoonin, Spartan center forward, continues to look good in his newly acquired position and hopes to add a few more goals to his

string against the San Mateo squad.

Although they don't have an impressive record, the boys from up the peninsula may give the locals a full afternoon. Coach Diederichsen fears that his team is looking ahead to the San Francisco State game Saturday and has forgotten about tomorrow's contest.

After looking over recent football results, Diederichsen feels more and more that San Mateo may be the team to beat. Underdog schools have in the past two weeks, risen up and smacked down two of the nation's top collegiate elevens simply because the favorites were not pointing for the game — they were looking

ahead for bowl bids.

So with the Spartans, Diederichsen believes; they may be looking ahead to a fourth consecutive NCI title.

Now that the squad is within sight of their goal, another soccer title, Diederichsen does not want to have the season marred with a loss to a second division team.

However, continuous workouts throughout their entire three-week rest from conference play hasn't hurt Spartan chances for a victory tomorrow. "At least the boys won't be suffering from lack of practice," Diederichsen said. "If anything, they may be a little stale from over-work," he added.

DEE PORTAL

## Novice Winners May Be Fighting For Varsity Places

Something more than just a medal may well be in store for the winners in next week's Novice Boxing tournament, declares pugilistic mentor DeWitt "Dee" Portal.

Faced with the possible loss of all but one veteran from his last year's star-studded varsity boxing team, Portal has announced that the other berths will be "wide open," and the novice winners will seem to have best chance to fill them.

### Watches Novices

"This is the first year in my coaching career here that I've been faced with such a shortage of experienced men," Portal says, "but there seems to be a wealth of talent among the novices now working out for the tournament, so I'm keeping my fingers crossed."

The departure for army service of Charlie Townsend, Pacific Coast Collegiate lightweight champion, yesterday left a big gap in Portal's squad; and now it appears that Woody Gibson, experienced light-heavyweight, and Bob Weber, PCC finalist last year and third-place winner in the nationals the year before, will also be among the missing next quarter when the season starts.

### Only Smith Left

Portal had previously lost Dick Miyagawa, national 127-pound champion, to a Japanese restoration camp, and later on his ace heavyweight, Frank Minini, left school via the draft.

So far Stan Smith, a rugged middleweight, is the only veteran that Portal is sure will be on hand.

Time for today's encounter between Gamma Phi and Beta Chi has been set for 4:15, announced league czar Joe Weitzenberg.

## SPARTAN WRESTLING STOCK ZOOMS AS FOUR INTERCOLLEGIATE CHAMPS REPORT FOR DAILY WORKOUTS IN GYM

With prospects for a championship squad looking bright indeed, Coach Sam Della Maggiore is giving his wrestlers stiff work-outs daily in the local gymnasium.

Cheered greatly by the presence of an abundance of good material in most divisions, the husky mentor predicted that this year's squad will be one to reckon with in amateur wrestling circles. Among those returning to boost the Spartan mat machine's stock are three Pacific Coast intercollegiate wrestling champions in the varsity division, and last year's Far Western kingpin in the freshman division.

Heading the list of champs is Davey Hines, Far Western and PCI champ for two years straight. The blonde judo coach will wrestle this year in the 165-pound division. Next in line on the star-studded

roster is Hans Weidenhoffer, present 165-pound titleholder who will wrestle at 175 pounds this year. The third titleholder is Ivan Olsen, head man on the Pacific slope in the 136-pound group last year. Completing the quartet of champions is Harold Janic, 145-pound freshman leader in the Far West.

Along with these men, Sam is counting on Grey McConnell, Bill Perry and John Dahl, three rugged gridders, to gain points in the heavyweight division, and Al Long, former frosh star at 175 pounds to give Weidenhoffer a run for his money in the light-heavyweight group.

So far, the Spartans have a meet scheduled with UC's Bears, two with Camp Roberts, and a meet with St. Mary's Pre-Flight.

"Yes siree...  
*That Extra Something!*"

"Ice-cold Coca-Cola is more than thirst-quenching. Yes siree. It's refreshing. There's an art in its making. There's know-how in its production. The only thing like Coca-Cola is Coca-Cola itself. Nobody else can duplicate it."

BOTTLED UNDER AUTHORITY OF THE COCA-COLA COMPANY BY  
COCA-COLA BOTTLING COMPANY—SAN JOSE, CALIF.

## THREE ADDITIONAL GROUPS JOIN GROWING LIST OF WASHINGTON SQUARE RED CROSS WORKERS

Three more organizations have been added to the ever-increasing list of campus Red Cross workers, it was announced yesterday by Mrs. Mildred Winters, general chairman of the unit.

Pi Epsilon Tau, general elementary honor society, has taken over the sewing room for the hour between 4 and 5 on Tuesdays and Thursdays. This means that, though the working day was originally scheduled to close at 4, it has been extended Delta Beta Sigma.

The other newly-signed organizations are Kappa Kappa Sigma and until 5 o'clock.

### PUBLIC SERVICE WORK

Members of Pi Epsilon Tau have always done some sort of public service work, and this Red Cross sewing will take the place of what they were formerly doing this quarter . . . picking tomatoes and helping with other crops every other week.

There are 25 girls in the group, which has been divided so that some work on Tuesdays, and the rest on Thursdays.

Instigator of the idea of working as a group instead of as individuals was Miss Elsie Bursch. Captains of the sewing groups are Misses Elsie Toles, Enes Veglia, and Virginia Davis.

### AWARD GIVEN

It has also been announced by Mrs. Winters that a service pin will be awarded to Miss Susan Byrne, member of the Art department faculty, who has completed over 100 hours of sewing and knitting for the Red Cross this quarter.

All other girls who have signed up to work for the unit are urged to keep putting in their hours in room 32 so that the quota of finished garments for the quarter will be reached.

### GOLFERS HELP

Oh, yes . . . another "group" has been added to the campus unit, with work by its members determined by the weather. When it is raining, Mrs. Vivian Gordon sends her golf classes over to room 32 to sew for the Red Cross.

"Last week we were deluged not so much by the rain, but by the number of workers who poured in at the 11, 12 and 1 o'clock hours. Now when we fall behind in our schedule, all we have to do is pray for rain!" says Mrs. Winters.

### What D'Ya Know!

Photography Professor George E. Stone comes to Life.

What we mean is Life magazine. He sputtered and muttered incoherently as he peered at a two-page spread of one of New York's latest musical comedy reviews.

There was a picture of George E. Stone, Japanese candid camera fiend. The professor's head was whirling. He tried to be an Aristotele and work the situation out logically, but he was just plain George E. Stone.

He wanted to sing and forget it, but he was no Bing Crosby. Just plain Georgie Stone. "If my students see this, my name is mud," he said. But we know his name is George E. Stone.

The fact of the situation is that another man by the name of George E. Stone is playing the part of a Japanese agent in a New York City Broadway show. The agent is a camera fiend. When interviewed, our Stone came clean and said, "It's true, my name is George E. Stone, and I am a camera fiend, but I am not a Japanese agent—period."

Attention: All Delta Beta Sigma sorority members and pledges, please look on the bulletin board.

## OFFICE TRAINING COURSES OPEN TO ADULTS AT SJS

During the winter quarter the Business department of San Jose State college will offer several short courses which will be open to housewives, former office workers, and other adults who desire to secure some intensive training that will lead to immediate employment in clerical and office work.

There will be classes in elementary and advanced typing, review shorthand and dictation, business and office machines, and filing.

There will be no fee for these business courses. The Commerce office, room 137A, will be open from December 2 to 9 for registration.

## Spartan-Knit Afghans Praised

Spartan co-eds who knitted six-inch squares for afghans as their share of campus Red Cross work will be interested in this story:

A San Jose State college alumnus, who is now a patient at Mare Island Naval hospital, reports that he asked a nurse for an afghan one day. What was his surprise, upon noticing the label sewed on it, to learn that San Jose State college girls had knitted the afghan.

The alumnus, Paul Jungermann, reported further that Spartan-brand afghans were in use when President Roosevelt and Mrs. Roosevelt visited the hospital recently. He says to look on page 20 of the November 28 issue of Collier's, co-eds, and you can see for yourself.

## Special Luncheon In Cafeteria Today

There will be a special luncheon at the college cafeteria today from 11:30 to 1 o'clock. The luncheon will be 30 cents, and the usual a la carte service is offered.

Also today, in the tearoom, there will be an interesting collection of pressed glass on display.

Mrs. Barbara Sullivan, a member of the Institutional Management class, is in charge of the luncheon.

## PI OMEGA PI INITIATION SET

Pi Omega Pi, national commerce society, will hold its formal initiation December 6 at the Hotel De Anza, according to word received from the Commerce office.

A sign-up sheet is in the office, and all members of the society are asked to signify whether they plan to attend or not.

There will be a meeting of the Inter-Society council Wednesday at 12:30 in Miss Dimmick's office. All members please try to be present. —Mary Virginia Bristow, Pres.

Lost: A brown Eversharp pencil. Return to Information office.

Fall track will start today. All men who are enrolled for credit must report for practice each day for the next two weeks in order to receive credit for the course.—Bud Winter.

## J. C. STUDENTS

All Junior college academic students may now have their programs approved in Dr. Jay Elder's office, room 103. No programs will be OK'd during the vacation time.

## Air Forces Offer Women Positions As Instructors

Students interested in applying for student instructor and junior instructor positions in the Army air forces technical schools and Naval aviation service schools may secure a copy of examination announcement 7-150 at the Appointment office.

Depletion of available manpower can be avoided to a considerable extent whenever the services of women can be utilized to replace those of enlisted personnel, it is emphasized, so female eligibles are encouraged to apply. Individuals already employed in any type of work essential to the war activities, or males below the age of 45 whose selective service status is other than 3A or 4F, will not be considered.

Student instructors will pursue a course in radio operating or engineering, airplane mechanics, or shop work, for a period of from three to six months. Successful completion of such courses will be followed by promotion to the position of junior instructor at \$2000 per year and assignment and transfer at government expense to one of the appropriate schools listed in the examination announcement.

Junior instructors will be used for the purpose of instructing soldiers and seamen in radio, shop work, and airplane mechanics. Those appointed by the War Department will be selected and will report to the individual Army air forces schools.

## KAPPA DELTA PI INITIATES TONIGHT

Kappa Delta Pi, national education fraternity, will hold its formal initiation ceremony Tuesday evening, December 1, in room 53 of the San Jose State college at 7:30.

After the ceremony, Miss Doris Robinson of the Placement office will address the group. She will explain the work of the office and the process of obtaining a teaching position, topics particularly vital to those interested in the field of education. All members and pledges are urged to be present as this information will be valuable to all teacher training candidates.

At a previous meeting of the organization an informal pledging was held. At this time the prospective members were introduced to Kappa Delta Pi.

## Talk On Skiis Scheduled Tonight

A lecture, "Focus on Skiis", will be given by Frank H. Howard, president of the California Skii association, tonight at 7:30 o'clock at the auditorium of the Memorial hall at Stanford university. The public is invited to attend, and the admission is free.

The talk, accompanied by colored motion pictures, is part of the Tuesday evening series presented by the Committee on Public Exercises of Stanford university. Anyone interested in taking a skii trip this year will be able to find information about it at this lecture.

SAY, "I SAW IT IN THE SPARTAN DAILY"

## First Asilomar Rally Scheduled Tonight To Plan Annual Meet

## Junior Chemist Offered Research Job In Riverside

A young woman junior chemist with at least two years of college work and not necessarily any practical experience may obtain a position in the research department of a food machinery corporation at Riverside, California, according to word received at the Appointment office from the chief chemist of that corporation.

She will act as assistant in research work, consisting of the development of improved methods for fruit and vegetable sterilization and preservation. There is a considerable amount of detail work connected with each project, including the recording and filing of all observations.

The applicant must have had the following subjects: General chemistry, qualitative and quantitative analysis, organic chemistry, and typing. Courses in botany, bacteriology, and biochemistry are desirable but not required.

A starting salary of \$130 to \$140 per month will be paid, depending upon the qualifications of the applicant.

## Post-War Politics Discussed Today By Dr. Campbell

In his second appearance of the quarter before the War Aims class, Dr. Earl Campbell of the Social Science department, will address the group on Post-War Political Organization.

Dr. Campbell spoke to the class on Political Organization for War with the second group of speakers for the quarter.

His talk today will deal with the problems which are going to face, not only the United States, but the world at large upon the return of peace.

"There will undoubtedly be a great change in political set-ups throughout the world after this war," Dr. Campbell said. "Due to the sudden rise to power of certain groups in Europe, there are certain revolutionary changes which will take place," he added.

Members of Lambda Gamma Alpha, Newman Club, and Eta Epsilon organizations are asked to pick up letters pertaining to their activities that have been accumulating in the Spartan Shop letter box.

The first Asilomar rally of the quarter will be held tonight at 8 o'clock in the Student Center, E. San Antonio street.

Marty Muller, chairman, announces that all students interested in the planned trip to Santa Cruz for the annual Asilomar conference in December are urged to attend tonight's rally.

### PLANS DISCUSSED

Plans for the conference will be discussed, and Rex Gardiner, publicity chairman, will interview prospective delegates to the meeting which will take place at the Casa del Rey in Santa Cruz, December 26 to June 2.

Theme of the discussions will be "We Win Our World . . . Future Is Ours for the Making." Aside from these discussions, there will be recreation in the form of dancing and sports at Asilomar.

All this will be the topic of the rally tonight, according to Muller.

### FUND SET UP

Students are reminded that there is a revolving fund belonging to "Asilomarites", and that anyone who wishes to attend the conference but hasn't sufficient cash, can borrow from this fund.

## Teacher Trainees To Hear Speaker

If you are a sophomore or expect to receive a teaching credential in any branch, it is important that you attend an important meeting on December 2, at 8 sharp, in the Little Theater.

Miss Robinson, appointment secretary, will be the speaker and bring important information to teacher candidates.

If you have a class at that call at the Education office, 161, for the information which must be filled out.

## VESSEL TO TALK TO SCIENCE GROUP THURSDAY NIGHT

At a Beta Beta Beta, science fraternity, meeting Thursday night, Dr. Matthew Vessel, Nature instructor, will deliver a talk.

"The relation of the out-of-door to the training of biology students". The meeting starts at 8 p.m. and will be held in room 161. Martin Brittan will talk at noon closed meeting tomorrow, "Birds of Prey".

Two weeks tomorrow, Betty Stowe will demonstrate methods of slide technique to the Beta Beta Beta luncheon.

The biology exhibit being arranged in the library this week was arranged by the science fraternity.
